Total Project Valuation:			10000/-
Future Milestone Backlog (Phase 2 & 3):			6000/-
Amount Paid (UPI):			4000/-

THIRD-PARTY OUT-OF-POCKET BILLING CLAUSE

Independent ecosystem layers (including domain name procurement for **avinashgore.com** and standard automated Razorpay platform transactional commissions) are entirely out of the scope of this development fee and are billed directly to the client's payment profiles. Core production web hosting is deployed natively via Vercel's zero-cost optimization tiers.

This invoice serves as an official electronic billing statement of current development project requirements.
